

OVERVIEW

The purpose of this application is to increase funding for one site to this lump sum Multi-Site Cooperative Agreement (MSCA) for Remedial Investigation/Feasibility Study (RI/FS) support at federal lead sites. Funding for the activities at this site are available on the SCAP. A portion of this funding is listed as alternative funds, if these funds are not available the Michigan Department of Natural Resources (MDNR) is proposing to fund the activities at this site by using funds on the SCAP originally intended for the Thermo-Chem site. The MDNR will provide the U.S. Environmental Protection Agency (EPA) with technical management assistance and community relations support for RI/FS related tasks.

Albion Sheridan (AN)	\$15,000
	=====
	\$15,000 TOTAL

This package is arranged with a comprehensive budget page for V995339-01 MSCA first, followed by the site-specific narrative, and site-specific task information.
